PROFESSIONAL SUMMARY

Data Analyst with a Computer Science and Artificial Intelligence background and hands-on training through the Digital Egypt Pioneers Initiative (DEPI) Data Analyst track. Turns raw data into structured, decision-ready insights using Python (pandas), SQL / SQL Server, Excel, and Power BI — covering data cleaning, exploratory analysis, KPI reporting, and interactive dashboard development. Also working as a web developer, with practical exposure to structuring and managing real data (Firebase/Firestore).

EXPERIENCE

Data Analyst Intern

Jul 2026 – Present

Cairo, Egypt · Hybrid

- Applied statistical analysis techniques on retail/service datasets using Python (pandas) as part of DEPI training, producing cleaned datasets ready for exploration analysis.
- Performed exploration data analysis and business reporting exercises using SQL and Excel during DEPI training, translating raw data into structured summaries for stakeholder review.

Workers Supervisor & HR Document Reviewer

Summers 2024 – 2026

Rotos, 10th of Ramadan City, Egypt · Seasonal

- Supervised factory workers during seasonal shifts (~3 months per year), coordinating daily tasks and ensuring workflow discipline.
- Reviewed and organized HR documentation and worker records, supporting accurate administrative record-keeping.

SELECTED PROJECTS

Car Inventory & Sales Dashboard | Excel, Pivot Tables, Pivot Charts

- Cleaned and structured car inventory dataset spanning 20 brands, 145 models, and 10 categories using Microsoft Excel.
- Designed an interactive dashboard tracking inventory status (575 sold, 249 available, 112 reserved, 64 in service) and profitability (67% profit margin, \$47.59K average revenue per sale) across dealers, regions, fuel types, and transmission types.

Superstore Sales Analysis | Python, pandas, Excel

- Built a structured, OOP-based Jupyter notebook (DataCleaner, FeatureEngineer, EDAAalyzer classes) to clean, explore, and analyze the Superstore retail dataset (9,994 records) — including IQR-based outlier handling — producing an automated KPI report on the cleaned data: **\$1.40M in sales, \$160.6K in profit, an 11.45% profit margin**, plus exported visualizations.
- Built an interactive Excel dashboard with slicers (Region, Category, Ship Mode, Year) and multiple chart types on the full raw dataset, tracking **\$2.29M in sales and \$286K in profit** across categories, regions, and time, including profit-vs-loss and discount-impact analysis.

Services Branch Analysis | SQL Server, Power BI, DAX

- Modeled a relational data structure in Power BI (Branch, Services, and Date tables) and combined SQL Server and Power BI to build an interactive revenue and performance dashboard.
- Tracked \$195.3M in total revenue and 217K total service hours across 4 regions and 5 departments, with DAX measures for revenue share by region, monthly/quarterly trends, and client-level reporting.

Space Tourism Booking Dashboard | Power BI, Python, SQL

- Cleaned and validated 3 years of space tourism booking data (9.02K records) using Python (IQR outlier detection) and verified KPIs with SQL queries.
- Built an interactive Power BI dashboard with DAX measures tracking \$306.09B in revenue, a 12% cancellation rate, and the top seat class, channel, and provider.

TECHNICAL SKILLS

Data Analysis: Data Cleaning, Exploratory Data Analysis (EDA), KPI Analysis, Statistical Analysis

Programming: Python, pandas

Databases: SQL, SQL Server, Relational Databases

BI & Visualization: Power BI, DAX, Excel (Pivot Tables, Pivot Charts, Dashboard Design)

Other: CRM Analysis (Firebase/Firestore), Communication, Leadership, Attention to Detail

CERTIFICATIONS

SQL and Relational Databases 101

IBM / CognitiveClass.ai
Issued Aug 2026 · Credential ID: DB0101EN

Oracle Fusion AI Agent Studio Foundations Associate

Oracle
Issued Aug 2026 · Score: 98% · Credential ID: 1Z0-1145-1

Data Fundamentals

IBM SkillsBuild
Issued Aug 2026 · Topics: Data Analysis, Data Visualization, Data Cleaning

EDUCATION

B.Sc. in Computer Science and Artificial Intelligence

Benha University, Benha, Egypt — Currently Pursuing (3rd Year) Current CGPA: 3.2 · Current Overall Grade: Very Good

LANGUAGES

Arabic — Native | English — Conversational
